

Blazy Antoine

Originally from the South West of France, born in 1997 and fascinated by advanced technology and industry since my youngest age, I am an insatiable curiosity, loving to learn every moment and meet all the challenges that present themselves to me. Rigorous, motivated, loyal, solution-oriented and proactive in everything I undertake, I like to be proactive and give the best of myself to achieve the goals of my organisation, exceed them and be proud of the accomplishments accomplished with my partners and collaborators. International work contexts, multicultural collaborative, high-stakes and demanding attracts me in particular.

Work experience
